

# SANIVAST SUSTAINABILITY REPORT 2023

## **INTRODUCTION**

At SaniVast, our commitment to making a positive impact on the world through responsible business practices is at the heart of everything we do.

This sustainability report provides a comprehensive overview of our multifaceted initiatives in the areas of environmental responsibility, social engagement, and corporate governance.

# ENVIRONMENTAL RESPONSIBILITY

## Energy Efficiency:

In 2023, we took significant strides towards energy efficiency by reducing our energy consumption by 10%. Our approach involved the adoption of state-of-the-art energy-efficient technologies, including advanced machinery, LED lighting, and motion sensor controls. These innovations not only saved energy but also streamlined our operational processes.

## Carbon Emissions:

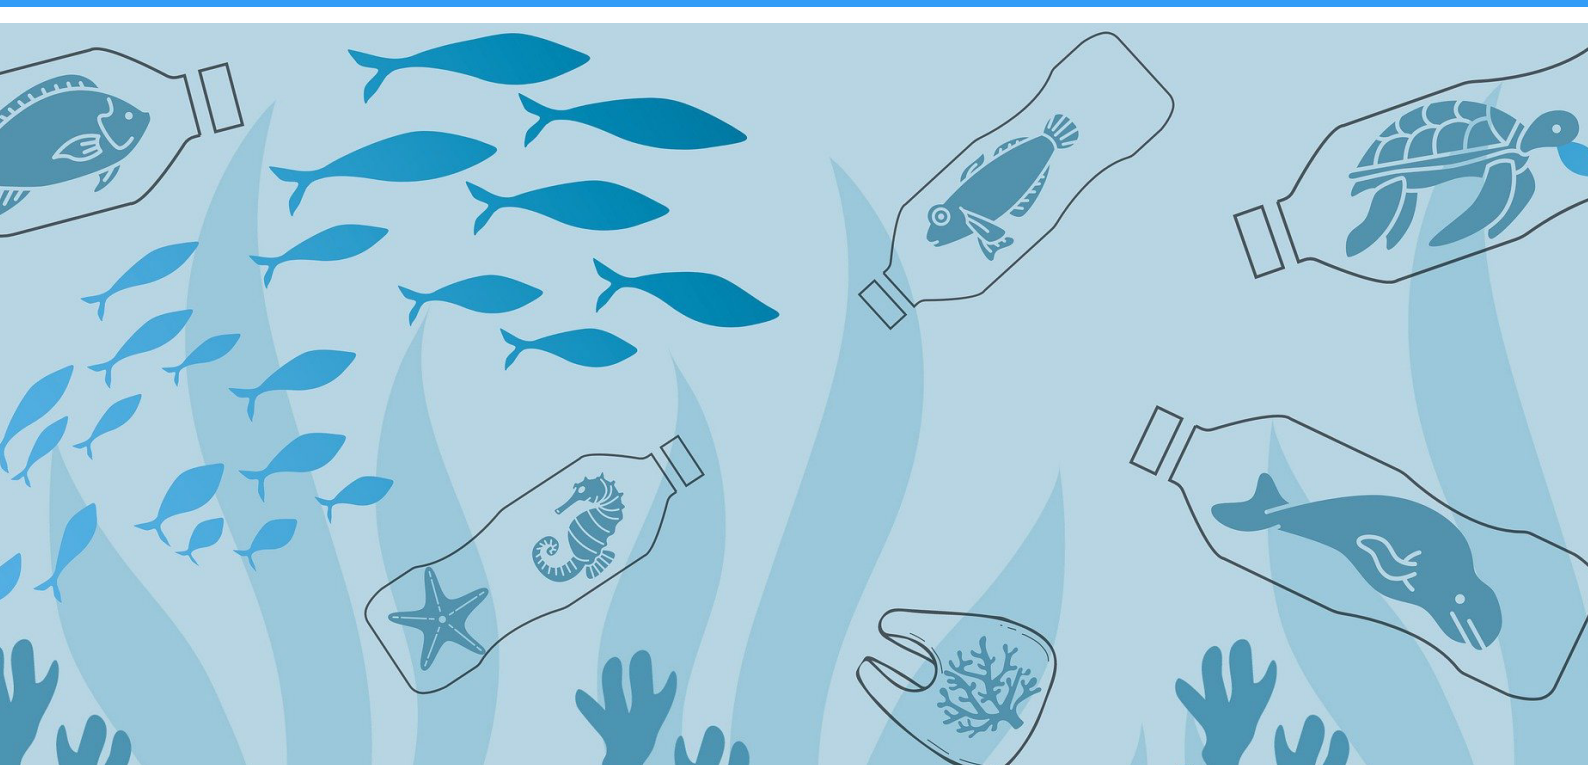

SaniVast is proud to report an estimated 8% reduction in carbon emissions. This achievement was made possible through our carefully crafted emission-reduction initiative. By optimizing job scheduling, we minimized the need for technicians to travel to individual job sites, thereby lowering our carbon footprint.

## Waste Management:

A key focus of our sustainability efforts has been waste management. In 2023, we successfully diverted 25% of our waste from landfills, primarily through the implementation of comprehensive recycling and waste reduction programs. A notable aspect of our strategy involves the creative reuse and upcycling of plastics, significantly reducing plastic waste in our operations. Furthermore, our dedicated recycling initiatives have substantially diminished the volume of waste sent to landfills.

## Environmental Cleanup:

Beyond our core operations, SaniVast remains deeply committed to global environmental stewardship. We actively engage in efforts to clean up the world's beaches, contributing both professionally and financially to this noble endeavor.

# SOCIAL INITIATIVES

## **Community Engagement:**

Our active engagement with local communities is a cornerstone of our corporate identity. We firmly believe in giving back, and as a restoration company, SaniVast is no stranger to donating time and resources for city cleanups and organized charity events. We encourage our dedicated team of technicians and managers to be ambassadors of positive change in the communities we serve.

## **Diversity and Inclusion:**

Our workforce is a reflection of our commitment to diversity and inclusion. Notably, 75% of our leadership positions are held by individuals from underrepresented groups. This reflects our dedication to fostering an inclusive and equitable workplace culture where diversity is celebrated and valued.

## **Employee Well-being:**

At SaniVast, the health and safety of our employees are non-negotiable priorities. We ensure their well-being through comprehensive wellness programs and up-to-date safety training. The welfare of our team is intrinsic to our overall success and the quality of our service.

# CORPORATE GOVERNANCE

## **Ethical Business Practices:**

SaniVast holds itself to the highest ethical standards in all facets of our business operations. This unwavering commitment is deeply embedded in our code of conduct and ethical policies, which guide our decisions and actions.

## **Regulatory Compliance:**

Maintaining full compliance with all relevant regulations and standards is a fundamental principle that governs our operations. We strive to not only meet but exceed the requirements set forth by the regulatory bodies.

# FUTURE COMMITMENTS

Our commitment to sustainability knows no bounds, and we are unwavering in our dedication to continuous improvement. As we look ahead, we have set our sights on an ambitious new venture—underwater ocean cleanup activities. We envision contributing our expertise to address the pressing issue of marine pollution.
